

We offer the following Hand Therapy services:

Desensitization/Sensory Re-education

Desensitization and sensory re-education help patients regain full hand and upper extremity function.

Hand/Upper Extremity Rehabilitation

A positive approach to upper extremity rehabilitation.

Pediatric Hand Therapy

Young patients are in good hands with our specialists.

Scar Management

Our therapists help guide the scar tissue healing process.

Upper Extremity Orthosis Fabrication

Our therapists fabricate custom splints and orthotics to aid healing.

Wound Care

Our therapists provide continuous wound assessment and care.

Manual Hand Therapy

The art and science of one-on-one, hands-on interaction between therapist and patient.

Sports Hand Injury Rehabilitation

Condition your body to achieve optimal levels of performance.
